reflecting your visions.

MEKRA Lang Camera System

MEKRA Lang - The Vision Expert

Combined with MEKRA Lang's mirror systems, MEKRA camera systems provide a substantial improvement of surround vision.

Exchangeable camera brackets guarantee a most flexible mounting and usage in compliance with the customers' needs and suitable for all vehicle types.

The camera housing is fitted with scratchproof, dirt and water resistant glass and has passed several endurance tests, for example the shock and vibration test (30 G).

The powerful heating of the camera allows for a reliable operating function all year at temperatures from -40°C to $+85^{\circ}\text{C}$.

The advantages of the MEKRA camera:

- Optimum design
- Universal mounting
- Robust camera housing
- Scratchproof, dirt and water resistant glass
- Operating temperature -40°C to $+85^{\circ}\text{C}$
- Camera weight $< 0.3\text{ kg}$
- Protection level IP 69K
- Light sensitivity $< 0.5\text{ Lux}$
- Resolution 380 TV lines
- e1 certified
- EMC approved
